Mendenhall

OFFICE OF THE SUPERINTENDENT
U. S. COAST AND GEODETIC SURVEY.
WASHINGTON, D. C.

June 20/93

Dear Professor Carhart,

By all means send an invitation to Professor DuBois, & am sure the Committee will approve.

Thompson has practically accepted the invitation to lecture - but Tesla leaves it an open question - in a great degree.

I am very sorry to say that Professor Rücker declines. I received a letter from him today - in which, after thanking the

Committee for the home
conference. He says that
his plans are unsettled
as much as to render it
impossible for him to visit
America this summer.

Have you any one to
suggest to fill his place?

Yours truly

T. C. Mendenhall

Professor H. S. Carhart

Ann Arbor
